

MarketGrader US Large Cap Select 50 Index

The MarketGrader U.S. Large Cap Select 50 Index tracks the 50 top-rated large cap companies in the U.S. equity market based on MarketGrader's proprietary GARP + Quality framework. Constituents are selected for their consistent ability to generate long-term economic value, measured through 24 fundamental indicators of growth, value, profitability, and cash flow.

Index Rules

Underlying Universe

The constituents of its parent index, the MarketGrader US Large Cap Core Index.

Objective

Designed to harness the returns from the large cap segment of the U.S. equity market, while adding alpha over time by selecting the segment's highest quality companies based on MarketGrader's methodology.

Weighting

Index constituent weights are based on each company's free float market capitalization, with the total Index weight per constituent capped at 10%.

Rebalance Frequency

Semi-annually on the third Friday of March and September.

Selection Criteria

On the Index's rebalance selection date, the 50 largest companies by total market capitalization from the parent Index (the MarketGrader US Large Cap Core Index) are selected, which then become the Index's constituents for the following six-month period.

Performance

Cumulative Total Return Dec. 2007 - Jul. 2025

The MarketGrader U.S. Core Select 50 Indexes were first published on August 2, 2023. All estimated daily historical closing prices prior to that date are based on back-testing (i.e., calculations of how the index might have performed in the past if it had existed). Backtested performance information is purely hypothetical and is solely for informational purposes. Backtested performance does not represent actual performance, and should not be interpreted as an indication of actual performance. Past performance is not indicative of future results. One cannot invest in an index.
