Additionally, all Index constituents are screened according to OWL Analytics's consensus ESG ratings, with only those companies that rank above their regional median eligible for selection. The Index's objective is to provide global investors with access to China's best companies, following best practices according to consensus Environmental, Social and Governance metrics, in the country's fastest growing sectors.

Index Rules

Investable Universe

All companies domiciled in China that have received a MarketGrader Score consistently for at least six months and whose shares are listed on the Shanghai Stock Exchange, the Shenzhen Stock Exchange, the Hong Kong Stock Exchange, the New York Stock Exchange, or the Nasdaq Stock Market. Additionally, all issues traded on China's Mainland exchanges must be part of the Hong Kong Stock Connect Program. Only companies that belong to the Consumer Discretionary, Consumer Staples, Health Care and Technology sectors are eligible for selection.

Regulatory Requirements

Stocks are ineligible for Index selection if they are classified by China's regulators as "Special Treatment (ST)" stocks; if their shares have been suspended from daily trading in the last six months; if their shares cannot be owned by U.S. persons according to U.S. regulators; or if their foreign ownership on the selection date is equal to or greater than 26% of the company's free float adjusted market capitalization.

Size and Liquidity Requirements

All companies must have a minimum total market capitalization of at least USD 500 million, and a three-month average daily trading volume of USD 5 million on the Index selection date.

Selection Methodology

Index constituents are selected on the basis of the strength of their fundamentals as measured by the MarketGrader Score (0 to 100), which seeks to identify high quality companies with strong growth prospects without overpaying for their shares. Additionally, MarketGrader has partnered with OWL Analytics, a pioneer in ESG consensus ratings, to ensure the Index selects only the companies with the highest ESG scores in their regional category.

Weighting Methodology

All Index constituents are equally weighted on the Friday following the selection date and one week prior to the Index's official rebalance date.

Index Selection, Reconstitution and Rebalance Dates

The Index is reconstituted and rebalanced after the close of trading on U.S. exchanges on the third Friday of March and September. The Index constituents are selected on the Tuesday of the previous week, or ten (10) calendar days prior to the reconstitution and rebalance date.
